Education

Bachelor of Technology, Computer Science & Engg. United Institute of Technology, Prayagraj	2024 – 2027 SGPA: 7.41
Diploma in Mechanical Engineering (Production) Chandauli Polytechnic	2021 – 2024 75.6%
Intermediate (ICSE) St. John's School, Chandauli	2019 – 2020 65.4%

Experience

Data Analyst Intern <i>InternAlpha</i>	Aug 2026 – Sept 2026 <i>Remote</i>
- Performed data cleaning, preprocessing, and exploratory data analysis on structured datasets using Python. - Applied statistical analysis and reporting techniques to extract meaningful business insights.	

Technical Skills

- **Languages:** Java, JavaScript, SQL
- **Web Development:** React, Node.js, HTML5, CSS3
- **Databases:** MongoDB, PostgreSQL, Supabase
- **Tools:** Git, GitHub, VS Code
- **Core Concepts:** DBMS, Computer Networks, Computer Architecture

Projects

VSBH Cricket League <i>React • Node.js • Express.js • PostgreSQL</i>	LIVE Code
- Developed a full-stack cricket league management platform backed by PostgreSQL to manage teams, fixtures, points tables, and live match updates for players and organizers.	
AI Social Media Post & Caption Generator <i>Python • Svelte • Gemini API • Hugging Face</i>	Code
- Built an AI-powered web application that generates social media posts and captions from user prompts, automating content creation and improving productivity.	
Murder Mystery Game <i>HTML • CSS • JavaScript • PostgreSQL</i>	Code
- Implemented event-driven gameplay mechanics, clue progression, and state management using JavaScript, with emphasis on logical reasoning and replayability.	
SecureNet IDS <i>React • FastAPI • PostgreSQL • Supabase • TensorFlow</i>	GitHub
- Built An AI-powered intrusion detection system that analyzes network traffic, extracts flow-level features, malicious activity has 99.56% detection accuracy using Random Forest model trained on the CICIDS2017 dataset.	
Currency Converter <i>HTML • CSS • JavaScript</i>	Code
- Integrated a live exchange-rate API with dynamic calculations and input validation for accurate currency conversions.	

Certifications

GitHub Foundations – DataCamp	View
- Completed foundational training in GitHub workflows, repositories, collaboration, and version control.	
Databases for Developers: Foundations – Oracle	View
- Completed Oracle database fundamentals with a 97% score, covering SQL, relational concepts, joins, normalization, transactions, and database development.	
Building AI Agents with MongoDB	View
- Completed training focused on building AI-agent applications and integrating database capabilities with AI workflows.	
IBM Generative AI Virtual Internship	View
- Completed a six-week Generative AI internship covering generative-AI concepts, prompt engineering, and AI-driven workflows.	
Databricks Fundamentals Accreditation	View
- Completed Databricks fundamentals training covering core concepts of the Databricks data and analytics platform.	

Achievements

- Solved **100+ DSA and SQL problems** on LeetCode and other coding platforms.
- Maintained a **7.00+ CGPA** throughout the undergraduate course.
- Participated in technical competitions and hackathons at college and external platforms.

Extra-Curricular Activities

- Active participation in Volleyball, Chess, Cricket, and Badminton; enjoys learning new technologies and exploring topics related to science.
